January 2025

Dear Friends of CIS,

**Tuesday Zoom Book Study Group:** Our next book *Edgar Cayce on the Akashic Record's: The Book of Life* by Kevin J. Todeschi, begins January 6, 2025 at 7pm PT.

**“Change is in the Air” by Rev. Christine Emmerling D.D.**

2026 is to be a year of new beginnings, self-discovery and personal growth. Wow! Hold on tight and be ready to move forward in life. No more holding on to old ways of doing things. Resist not and enjoy what life is bringing forth. Even if we can't see it at this time, we trust there is a greater good coming forth out of all the chaos of 2025. There is an energy in the air of change. It feels like we've made it over the hump of 2020's and moving towards the 2030's – a whole new era, a breakthrough point for humanity to peacefully work together and co-exist.

The prior millennium was about individualism. We even experienced the extremes of sense of ego self. Once we entered this current millennium its influence has been towards community, working together to solving problems. But there has been a tug-of-war, a resistance to new ways of being, expressing and creating, for the old ways of power, control, and selfish purposes.

I find it strange that the word “woke” in today's society means a bad thing. At least that is how it comes across when being used against people. Regardless, I accept that I am “woke” for this means to me being awake to the Truth of At-One-Ment with God; God is love and love is God; to be compassionate, caring, generous, understanding, respectful, accepting and forgiving. This tug-of-war is about the fear of change, and not just around politics, it's about our whole way of life. It's like we're in the last throws of the 4-headed-dragon before it is defeated. The Truth is out of the bottle and there's no going back. Our spiritual growth can be seen as a spiral, with a temporary dip before rising even higher than before. The progression is always greater awareness; more love and more light.

The cosmic egg cracked letting in the first rays of light, and has continued to open wider letting in more light. This light is expanding and getting brighter until there are no shadows, no darkness, and just light. This light is awakening the whole world, a new creation is being born and we shall witness a society of fully conscious spiritual beings. I invite you to hold a high vision for our world, and be a witness to its unfoldment into something more wonderful than we ever imagined. Life is good, so very good now and always. Happy New Year 2026!

**“New Year Hopes for 2026” by Rev. Teresa Stuefloten, M.Div.**

What are your hopes for 2026? Many people talk about New Year's resolutions, but what do we envision coming forth to lift the Earth realm?

I am hopeful that in 2026 there will be more kindness in the world.

That means I must be even more kind in 2026. I must act with love, even when others display anger.

I am hopeful that in 2026 there will be more compassion in the world.  
That means I must be even more compassionate in 2026. I must see beyond the personality others display to the Truth of their divinity within.

I am hopeful that in 2026 there will be more caring in the world.  
That means I must be even more caring in 2026, reaching out and helping others in any way I can, acting from my heart and my soul always.

I am hopeful that in 2026 everyone will have all that they need to thrive.  
That means I must give even more in 2026, being the heart and the hands of God in this world.

I am hopeful that even more people will be lifted spiritually in 2026.  
That means I must endeavor to keep my thoughts and words always positive and uplifting.

What are your hopes for 2026 and what will you contribute to their manifestation?
