Dear Friends of CIS,

“Spring into Summer!” by Rev. Christine Emmerling

Our days are getting longer, warmer, and here in California our hills have turned from green to a golden hue. All the signs that summer is nearing. The month of June is a transitioning from spring into summer. For farmers it's a time to harvest the fruits of the season. We see strawberries, blueberries, blackberries, peaches, plums, nectarines, apricots, grapes and watermelons. Yum!

For our young adults it's a season of graduating from high school, and preparing for higher education and/or seeking a job or career. Regardless of our age we seem to have our periods of graduating from one step in growth to another. We naturally notice a child's physical growth and mental capabilities advancing, but once fully grown the changes become mostly inward. We may struggle with our emotions of fear, doubt, sadness or loneliness. But all these stressful signs are a calling out of our soul for greater expression. It's all about spirituality and connecting with our Christ or God consciousness within us. It's awakening to our spiritual nature. To know our spiritual self, the Christ within, is the true journey of why we are here on earth.

Summertime represents this awakening period giving us opportunities to put to the test all that we have been studying. We get to spread our wings so to speak. This can be a fun time taking vacations, traveling and exploring new places. These are opportunities to delve deep and discover aspects of Self. I've always enjoyed traveling to where the waters are warm. Back in the mid-1980s, it was in Jamaica that I found myself surrounded by hundreds of small jelly fish, at first, I panicked and got stung, and kept on going. Then I had to swim back through the school of jelly fish. This time I silently repeated, “All is love – I am love” and it worked. I learned the power of love over fear. I've had many adventures to put my spiritual tool box to use. Now we don't have to go far away, but it is good to go someplace new to spread our wings. Or, just try responding differently and catch a miracle.

“Heavenly Views!” by Rev. Mark Stuefloten

My maternal grandparents lived in Santa Barbara. They lived in a home high in the hills overlooking Santa Barbara. Their living room had a large picture window where you could look out past the town and out to the sea. As a child I wondered if this was the view angels had as they descended down to earth. I thought the angels could stop here and rest their wings in the cool shade of one of the many orange trees planted along the hillside. Those Heavenly Angels, I imagine, are active everywhere, helping us get through life's ups and downs. The angels work in the invisible and the visible to help us solve or cope with tough conditions. The Bible, in Hebrews 13:1-3, says “we may be entertaining angels unaware.”

There are other kinds of angels working together to help people around the world live better lives. They are called Light workers, people reaching out to help others. People showing up to help when there is a disaster are light workers. Light workers help the unhoused. Light Workers minister to all kinds of people who have lost their footing in the world.

There is a third kind of angel. I call these people Earth Angels. Earth Angels are those people who minister quietly, unnoticed. They are just doing their job, but you feel there is just something special about them. I have been fortunate to have had more than a few of these Earth Angels in my life. Their presence gives you a feeling of wellbeing. Who are these Earth Angels? They are you and me. We all have times when we are those special people making someone's life spark a bright light again. Sometimes simply saying a word or two can change the direction of someone's life for the better. We are Divine Beings helping each other. We are supported in an infinite number of divine ways. Believe in God's Goodness. Believe in Divine Angels of all kinds. Believe in you; God does!
